Gordon Food Service North American Branded eCommerce Image Requirements

Including images in Gordon Ordering is vital for enhancing the user experience and increasing conversion rates. High-quality visuals clearly represent products, helping customers make informed purchasing decisions. Gordon Food Service requires the following 4 image types for each branded product to support Gordon Ordering.

U.S. Branded Product Image Requirements

Gordon Food Service partners with Big Events Studios to ensure consistent, high-quality images of all branded items. To capture these photos, the Brands team will request a full case of each item(s) to be sent to Big Events, address below. This product must be packaged in our brand packaging, exactly as it would appear in production*. Big Events will invoice Supplier/Brokers for e-commerce imagery as a part of product costs**. Each image costs \$30 plus a handling fee.

Example

- 1 Item (4 images x \$30 each) \$120 total = \$120 per item.
- + \$6 handling fee per invoice. Could include multiple items.

1. Please arrange product to arrive to the studio:

- a. **If dropping off:** Please call prior (616.292.4775).

Drop off during business hours (9:00 AM - 5:00 PM) and ensure item(s) are left inside or arrange a time when speaking with Big Events over the phone.

*Packages that show up severely damaged may require a second sample to be sent OR a fee to fix in post production (Supplier's choice).

**Invoices will be expected to be paid within 30 days to avoid late payment fees.

- b. **If shipping:** Use a secondary corrugate box to protect both the product and the branded corrugate. Attach the yellow sheet at the end of this document to the outside of the shipping box, ensuring all fields are filled out.
